

6th November 2019
Dear Parent/Guardian,

The Trust School Health team has had to reschedule your child's flu vaccine clinic that was due to take place at his/her school during November.

The reason for this is due to a small number of deliveries of the nasal flu vaccine (Fluenz Tetra) that have been delayed to all areas of the United Kingdom, including Northern Ireland.

It is important to emphasise that your child will **still** receive the flu vaccine before flu generally starts circulating. If your child has no underlying medical conditions they should wait to receive their flu vaccine at school as normal.

If your child has an underlying chronic health condition that makes them more vulnerable to flu, as in previous years, they can receive the vaccine at your GP surgery.

No further action is required from yourself and we will inform you of your child's rescheduled date.

Thank you for your understanding.

Yours sincerely

School Health Team
